I have posted this before, but they have no longer response. This is the main reason why I made this post now. I download all this programs which I need for my work and when I tested them, the results were pretty good. However I would like to know if you can help me. First I downloaded SPX Player, but it didn't do anything useful for me. After that I downloaded SPy OS, but it was not for me either. When I downloaded MOZAIC, it was fantastic. I did everything I needed on this software. But I don't know what to do next. This is the link to the download. There is no link to the file. I just downloaded it from this server, but I don't know where it is. A: This is the main reason why I made this post now. First I downloaded SPX Player, but it didn't do anything useful for me. Your best bet is to download the file you are looking for from the link you posted and save it to your computer before starting to work. You can then start the program from that saved file location. After that I downloaded SPy OS, but it was not for me either. This is because the download you posted is a.iso file, not a file you can run. You have to burn the ISO to a disk/dvd/usb and start the program on that disk/dvd/usb. You might already have a free burner program like Windows BitLocker on your PC. If not, try using or to download a compatible burner program and burn the ISO to a disk/dvd/usb. When I downloaded MOZAIC, it was fantastic. I did everything I needed on this software. But I don't know what to do next. This is the link to the download. This is where your issue lies. MOZAIC isn't downloading itself for you. You have to burn the ISO to a disk/dvd/usb and start the program from that disk/dvd/usb. That
